About Me

I'm a highly motivated self-taught Full-Stack Developer skilled in HTML, CSS, JavaScript, jQuery, React, Tailwind CSS, PHP, and SQL. Built responsive websites with great design and functionality. Ready to contribute to professional web development projects.

Education

SELF TAUGHT

Self-Taught Web Development (2022 - Present)
Completed various online courses and tutorials to gain expertise in web development tools and best ..

Projects

Personal Portfolio

Portfolio(React & Tailwind CSS): Developed a visually appealing and responsive portolio website to showcase my skills and projects.

Virtual Reality Homepage

Virtual Reality(HTML, CSS, JavaScript, PHP): Created a simple homepage for a virtual reality site, allowing access only to authenticated users.

Facebook UI   Clone

Facebook UI Clone (HTML, CSS): Created a responsive clone of the Facebook user interface, demonstrating proficiency in layout and responsiveness.

Blog

Blog (Tailwind CSS, JavaScript, MySQL): Built a functional blog platform featuring user login and registration functionalities.

Weather App

Weather App (Tailwind CSS, JavaScript): Leveraged a weather API to develop a user-friendly weather app featuring accurate, up-to-date weather information.
